I am Dananjaya, an Applied Software Engineer with a strong strategic and analytical mindset, experienced in designing and delivering impactful software solutions that drive business growth and operational efficiency. I specialize in analyzing complex problems, developing data-driven and scalable systems, and supporting successful implementation across diverse domains. With a strong focus on quality, performance, and user-centric design, I am committed to creating measurable value, supporting organizational change, and continuously improving through learning and innovation.

PROFESSIONAL EXPERIENCE

Junior Software Engineer

Hivexstack Technology

2025 - 2026

- Expected to take responsibility for developing and maintaining full-stack web applications.
- Will work on implementing backend services, APIs, and database schemas.
- Participate in system optimization, feature development, and code reviews.
- Support junior developers and contribute to team-based development tasks.

Software Engineering Intern

Hivexstack Technology

2025

- Completed hands-on internship training in Full-Stack Development.
- Contributed to real-world web applications including AgroLink.
- Assisted in frontend, backend, and database development.
- Gained experience with REST APIs, Git/GitHub, testing, and debugging.
- Collaborated with team members following software development best practices.

EDUCATION

Higher Diploma in Information Technology (HDIT)

ICST University

2025 – Present

Undergraduate

Advanced Full Stack Development (AFSD)

Certifications

ACPT

Completed

SKILLS & PROFICIENCIES

PROGRAMMING LANGUAGES

- Java
- Python
- JavaScript
- C#

FRONTEND DEVELOPMENT

- HTML5, CSS3
- Bootstrap, Tailwind CSS
- React.js, React Native
- jQuery
- Material UI (MUI)
- Basic UI/UX (Figma)

PROJECTS

WORKWISE – JOB FINDER WEB APP

Tech: React.js, JavaScript, CSS

- Developed a job search web application allowing users to browse and explore job opportunities.
- Implemented responsive UI components using React for a smooth user experience.
- Focused on component-based architecture and frontend best practices.

Repo - [job finde react app](#)

DESKTOP MANAGEMENT APPLICATION

Tech: C#, .NET, Windows Forms

- Built a desktop-based management system using C# for handling core application operations.
- Implemented form validation, data handling, and user-friendly interfaces.
- Gained hands-on experience in desktop application development and event-driven programming.

Repo - [destop app](#)

TASTYTAP-MOBILE FOOD ORDERING APP

Tech: React Native, JavaScript

- Developed a mobile application for browsing food items and placing orders.
- Implemented reusable components and navigation for a smooth mobile user experience.
- Focused on mobile UI design and performance optimization.

Repo - [tastyTap MobileApp](#)

LIBRARY MANAGEMENT SYSTEM

Tech: Java, JavaFX, MySQL

- Developed a library management system to manage books, users, and borrowing records.
- Designed interactive UI using JavaFX and implemented backend logic using Java.
- Integrated database operations for data storage and retrieval.

Repo - [Library Management system](#)

BACKEND & FRAMEWORKS

- Spring Boot
- Hibernate
- Node.js, Express.js
- Flask
- .net

DATABASES & CLOUD

- MySQL
- MongoDB
- SQL
- AWS

TOOLS & VERSION CONTROL

- Git & GitHub
- Postman
- VS Code
- IntelliJ IDEA

CORE COMPETENCIES

- Full-Stack Web Development
- RESTful API Development
- Object-Oriented Programming (OOP)
- Software Development Lifecycle (SDLC)
- Problem Solving & Debugging
- Teamwork & Collaboration

SOFT SKILLS

- Strong problem-solving and analytical thinking
- Effective communication skills
- Teamwork and collaboration
- Time management and multitasking
- Adaptability and willingness to learn
- Attention to detail
- Ability to work under deadlines

LANGUAGES

- Sinhala (Native)
- English (Fluent)
- Tamil (Fluent)
